

BROOKSIDE
REHABILITATION CENTER

THRIVE
ON-SITE DIALYSIS

Coming Soon... Thrive On-Site Dialysis at Brookside!!!

Brookside is proud to announce that we will be one of the few SNFs in the country to provide on-site dialysis. We are partnering with a nationally recognized leader in dialysis care.

By providing on-site dialysis, your patients at Brookside will not have to travel off-site multiple times per week to receive care. This will not only improve their dialysis care, it will have a profound impact on their quality of life. Brookside patients will be able to focus on their rehab needs and participate in additional recreational and social programming.

Having on-site dialysis will also help reduce unnecessary re-hospitalizations.
